Activities :

We are active on a cultural level and a political level:

1) Cultural :

ASA organises analysis seminar about scriptwriting with scriptwriters and directors as Frédéric Krivine, Jacques Doillon, Jaco Vandormael, Jean Van Hamme, Pascale Ferran, Harry Cleven,...

The association also wants to help young scriptwriters to find their way in the business. We can give them advices and help them to complete their training.

2) Political :

ASA, as a member of the association PROSPER, also acts to improve the way how scriptwriters can find help in the French speaking part of Belgium. We try to convince the Ministry of Culture to give more money to allow scriptwriters to write long feature films, but also to favour the partnership between directors and scriptwriters.

We are not yet an union as we are not enough powerful and as scriptwriters are not a priority in Belgium, but nevertheless, we try to put all our weight in the balance.

We also try to convince the national television to increase the number of projects where a scriptwriter is needed.

In one word, we try to improve the recognition of the profession of scriptwriters.
